Lenalidomide ViatriS (lenalidomide) Capsules
– Alternative Registered Foils

Dear Healthcare Professional,

We are writing to provide you with an important update regarding Lenalidomide ViatriS (lenalidomide) Capsules (provisional consent) sponsored by ViatriS Ltd.

To ensure continuous supply, a labelling exemption has been granted by Medsafe for all marketed strengths of Lenalidomide ViatriS (5 mg, 10 mg, 15 mg, and 25 mg) to allow the supply of product manufactured for the European Markets into New Zealand for a short period.

The Capsules produced for the European markets are identical to the New Zealand product, with no changes to the formulation or capsule appearance.

The blister strips from the European markets will be placed into the existing New Zealand-registered cartons. As the blister strips are from other markets, the following is of note:

- The foil text may appear in different languages
- The trade name printed on the foil may differ from “Lenalidomide ViatriS”

Both existing and European blisters may be distributed concurrently in the short term.

Images of the alternative blister foils are provided in the Table below.

Healthcare professionals are advised to refer to the approved New Zealand Data Sheet when prescribing Lenalidomide ViatriS accessible here: <https://www.medsafe.govt.nz/>.

Adverse Event Reporting & Medical Enquiries

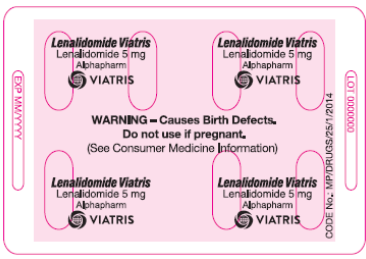

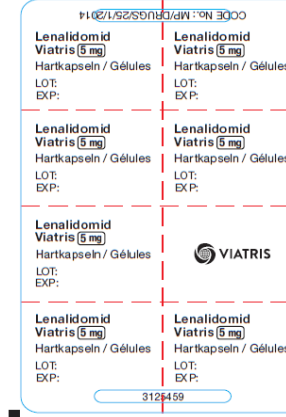

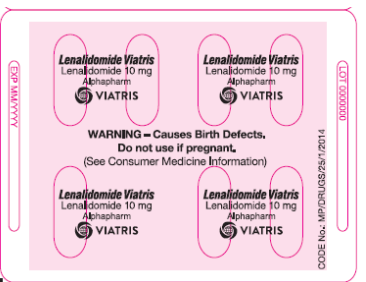

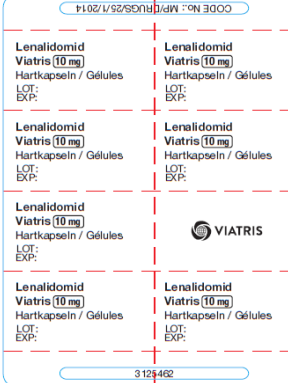

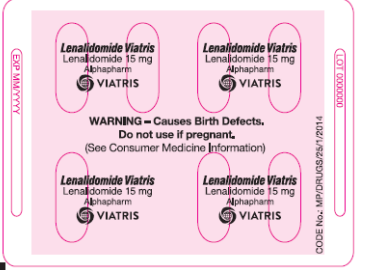

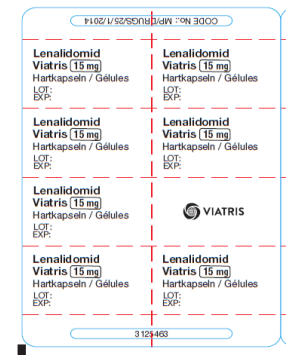

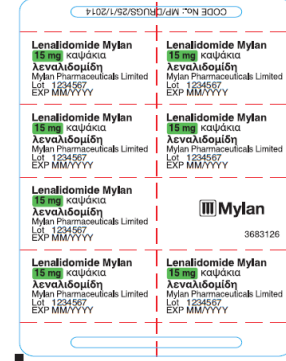

Please report any suspected adverse events via email to Medinfo_anz@viatris.com. Alternatively, suspected adverse events may be reported to the Centre for Adverse Reactions Monitoring (CARM) online at <https://nzphvc.otago.ac.nz/> reporting or by email to CARMreport@health.govt.nz. Please direct any medical enquiries to ViatriS or report any suspected adverse drug reactions to ViatriS via telephone on 0800 168 169 or by email at medinfo_anz@viatris.com.

Yours Sincerely,

Manar AL-Murrani
